***Cultivating Resiliency - Ag Community Support Initiative***

*Agricultural stress is real and we have been working on ways  
to help people weather that stress.*

Be among the first to learn the initial results from a nationwide questionnaire on stress and agriculture and hear an update about the online support sessions that have reached people in 47 states, the District of Columbia and five provinces in Canada.

We will also share our exciting plans to expand the project  
and serve even more people across North America.

***"Generation Z Speaks Agriculture" Advocacy Contest***

This contest encourages 11-23-year-olds to depict authentic and positive agriculture/food messages to consumers through photos, videos and special events.
