

WOMEN HEROES of Science & Technology

I focus on science, pollinator health and stewardship so agriculture can feed the world's growing population.

What I love about my job:
I'm able to use science to understand issues. I can then help explain these issues to others.

Becky Langer

Project Manager NA Bee Health
& US Forward Farm Lead;
Bayer CropScience

Bachelor's Degree in Microbiology,
University of Arizona
Ph.D. in Pathobiology,
University of Arizona

A message to young
SCIENTISTS

“Follow your heart
and work in jobs
that interest you
and don’t be afraid
to take on new
challenges.”
